

INTERN (M/F/D) @ FOUNDERS FOUNDATION

Business is like travelling: The interesting stuff always happens off the beaten track. This is why we set camp in Bielefeld. The widely underestimated city is not only a hidden (and beautiful) gem, it is also located in the center of one of the most interesting parts of Germany: the OWL region, home to an abundance of hidden champions. Like most corporates the local Mittelstand combines stability and success, but lacks in agility and creativity. This is where the Founders Foundation steps in: We are creating a founder-centric ecosystem and educate the next generation of tech entrepreneurs to build a bridge between the old and the new. And we need your help - so that we can look back one day to say: **We made a difference.**

WHY DO WE NEED YOU?

Rome wasn't built in a day - and Bielefeld will take some time, too. Help us grow a thriving ecosystem for startups in the OWL region, bring your talent for communication, IT, events, talent acquisition or education to the job and learn from the best.

THINGS YOU'LL DO

There is so much pioneer work to be done at the Founders Foundation we'd like to turn the tables and ask: What are your skills? Where do you feel comfortable? Does your heart beat faster when you open your laptop? REST API isn't new to you and juggling with data isn't a problem? Then help us to get the best out of our data as an IT working student. Or are you more of an organisational talent? Do you enjoy administrative tasks, working with G Suite and the People's Business? Then support our team in the event and education area. If you're more skilled in the marketing and online area, join our communications team.

ABOUT YOU

You are fascinated by startups and innovations and you'd like to contribute to the further establishment of the founder scene in Ostwestfalen on an international level with your know-how and hands-on mentality.

WHAT'S IN IT FOR YOU?

At the Founders Foundation you will work in an environment where every day has a „Wow moment“ in store. You will have the opportunity to become familiar with a variety of industries and will constantly be in touch with inspirational entrepreneurial personalities. An injection of startup spirit is what we love! Bring your own ideas and personality and experience a learning-filled time with a great team and inspirational founders (the internship will run for a minimum of three months).

We are looking forward to receiving your application with an informative CV, your desired length of internship, and a short video explaining your motivation to bewerbung@foundersfoundation.de*

*The data controller in charge of data privacy and protection for your application is the Founders Foundation, Carl-Bertelsmann-Str. 256, 33311 Gütersloh, Germany ("Bertelsmann Stiftung"). The Founders Foundation processes your information for the purpose of establishing an employment contract pursuant to Art. 6 (1) b General Data Protection Regulation (GDPR) / section 26 German Federal Data Protection Act (BDSG). The retention period for the information provided by you is six months as provided for by the General Equal Treatment Act (AGG), beginning upon the completion of your application procedure.

The Founders Foundation is an initiative of the Bertelsmann Stiftung - your application will be passed on to us via the main recruitment department due to data protection law. The Founders Foundation engages service providers for the processing of your information. Except for this, no disclosure of your application takes place unless this is required by law or you have given your consent. You can contact the data protection officer of the Founders Foundation at the above address or by writing to datschutz@brandi.net. For more information on data privacy and protection, see here (<https://foundersfoundation.de/privacy-policy/>).
